Her father is away most of the time in Army Battalion and mother has to raise their child all alone along with grandpa and grandma. Though she works in small farm and they are facing many difficulties in coping up with school fees and it's need towards their three children. Moreover their grandparent needs constant medical care which makes it difficult even with earning from their father.

As such Tibetan Children Village has accepted to pay stipend for this child's upkeep through our Outreach Program. This program takes care of most vulnerable and needy cases.

Therefore any help or support for sponsorship of this case will be highly appreciated.
